

## About Kan-safe

### Mission

The mission of Kan-safe is to provide a current and informative educational resource center that will assist Kansas librarians, educators and their respective boards in making informed and local decisions in regards to Internet safety. We believe Internet safety and filtering decisions should be made by each individual library or school district while at the same time complying with state and federal laws.

### Partnerships

A component key to the success of Kan-safe is partnerships. We rely on input from our target audience of Kansas librarians and educators to develop and enhance Kan-safe. We have also established a working relationship with the Kansas ICAC Task Force which provides law enforcement contacts and continuing education opportunities for libraries and schools.

### Disclaimer

This project is supported by a [2004 Kan-ed Content Grant](#), a [2004 Library Services and Technology Act Grant \(LSTA\)](#) from the [Institute of Museum and Library Services \(IMLS\)](#) and funding from the [South Central Kansas Library System \(SCKLS\)](#) general budget. Neither SCKLS nor Kan-safe endorse any external sites, products or opinions.

Federal and Kansas state law and terminology overviews are intended as information only. Project Kan-safe and SCKLS make no claims regarding the legal issues and laws discussed herein. The information provided has been developed with our best understanding and interpretation of the laws. If you have questions or concerns with the laws or legal terminology listed, please contact your agency's attorney for further clarification.
